

Stonehouse Business Park

Service: Project Management
Location: Stonehouse

Project Overview:

Evans Jones was contracted by the developer Robert Hitchins to oversee a new retail development comprising of the development of a shared site for a drive-thru retail facility with associated car parking for 32 cars, landscaping, service connections and drainage as well as the provision of a separate additional car park for 42 cars for a separate tenant with associated landscaping, drainage and service connections.

The whole development included the provision of 170m² of single-storey accommodation for fitting out by a tenant with bin store together with a shared entrance and barrier-controlled access for separation between tenants.

The Results:

Evans Jones planned, coordinated, controlled, and reported on all aspects of the project.

Despite the issues caused by a shared site for two very different end users, all cost, time and quality targets were met.
